

HAWORTH

HiYa

Overview

07.2022

Adjusts to your needs

Height-adjustable tables encourage posture changes to promote movement and well-being, so people can comfortably do their best work.

The HiYa table is an affordable solution with design flexibility that supports the ergonomic needs of your workforce.

Refined details

HiYa doesn't compromise performance. A simple, intuitive paddle provides easy adjustment and operation of the quiet motors. Built-in Collision sensor technology detects obstructions with a high level of precision to minimise collisions and avoid possible damage to the table and other items in the work area

Why HiYa ?

HiYa is Haworth's answer to price-sensitive, fully ergonomic height-adjustable table solutions:

Affordable performance

HiYa is a competitively priced freestanding height-adjustable table for almost every working environment. Fully GS compliant with built-in anti-collision and quiet motors it fulfils the ergonomic needs of most users without compromise.

Intuitive details

Despite its simplicity, HiYa also introduces some new design features. Starting with the intuitive paddle control (a Haworth global standard) through to its knife-edge worktop option HiYa stands out for more than its price tag

Flexible and fast

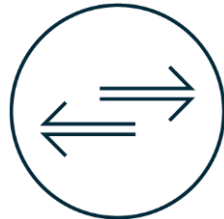

The flexibility of HiYa allows it to be easily adapted to any table width from 120-180cm. Designed for easy shipping, in 2 boxes, it can also be easily stocked. European stock is available to support fast delivery times.

Flexibility in the post-Covid office

The HiYa table offers some unique considerations for the post-Covid office world through the flexibility of its design

A free-standing table that can be easily moved or re-oriented to create new office configurations or support distancing requirements

Flexible beam allows easy resizing to adapt to any changes in space requirements with minimal part replacement. Helping future proof workplace layouts

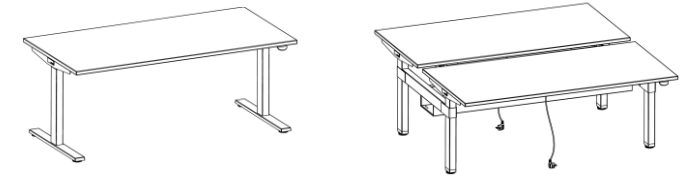

The packaging concept allows it to be easily shipped directly to individual locations, such as employees' homes or web-orders.

Cable tray						
95 cm		•	•			
135 cm				•	•	
Bench Cable tray		•	•	•	•	
Cable outlets						
Rectangular access (24x12cm)		•	•	•	•	
Round outlet (ø 9.1cm)		•	•	•	•	
U-form outlet (8.1 x 3.4cm)		•	•	•	•	
Scalloped† (depth 5cm)		•	•	•	•	

Notes:

* Due to the telescopic frame any size of top can be selected between 120-180cm in 1 cm increments

* Knife cut edge is applied to the front-edge (seated side) of the worktop. The profile is shown below

Be aware only possible with edelweiss finish and not possible on bench 149.2 cm

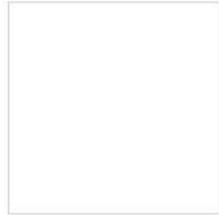

* Scalloped is cut onto back-edge of worktop, starting 25cm in from each outside edge of the worktop.
